

TASK.DRAFT: SPECIFICATION & WIREFRAME OVERVIEW

This system documents mobile task workflows using complete grayscale constraints. High-contrast blueprints facilitate structural design evaluation.

CONCISE REQUIREMENTS

- **System Access:** Welcome / authentication system fallback validations prior to accessing workspace datasets.
- **Centralized Dashboard:** Filter-driven home hub classifying overdue and upcoming assignments cleanly.
- **Project Structures:** Aggregated directory tracking performance variables and individual project backlogs.
- **Activity Audit:** Full transaction logging records status adjustments and direct assignee updates.

PRIMARY PERSONAS

- **Sarah (Tech Lead):** Wants quick system level schemas overview to cross-reference pipeline databases. Needs seamless subtask checkbox flows.
- **Alex (Project Manager):** Tracks broad macro timelines. Needs project progress summary tracks and easy create/edit interfaces.

ACCESSIBILITY & USABILITY CONSIDERATIONS

TOUCH & TARGET TARGETS
Minimum 48x48dp interactive boundaries maintained across all primary interface controls to prevent mis-clicks.

Grayscale & Contrast
No reliance on color coding for status indicators. Symbol brackets like [!] denote Overdue, [-] In Progress, and [] To Do.

LABELED SCREEN INVENTORY

1. Welcome & Sign-In
2. Home Hub / Search
3. Projects Overview
4. Project Detailed Backlog
5. Task Specs & Activity
6. Interactive Creator / Editor
7. Calendar Agenda

USER-JOURNEY PATH MAPS

- 1) **Sign-In Flow:** Welcome (Submit Login) —> [Success Validations] —> My Tasks Home Hub
- 2) **Create Action Flow:** My Tasks —> [Click "New Task"] —> Form Interface —> [Click "Save"] —> My Tasks —> Task Specs Detail
- 3) **Directory Drilldown:** My Tasks —> Projects List —> [Select Project] —> Project Detail —> Task Specs Detail
- 4) **Schedule Agenda Flow:** My Tasks —> Calendar Schedule —> [Select Date Card] —> Agenda Item —> Task Specs Detail
- 5) **Iterative Edit Flow:** Task Detail —> [Click "Edit"] —> Form Interface —> [Click "Save"] —> Task Detail (Updated Logs)

PROJECTS

+ NEW

PROJ-01: SYSTEM REBUILD

64% DONE

Migrating core databases to structured schemas & API alignments.

9 of 14 tasks resolved

PROJ-02: DESIGN DOCS

20% DONE

Drafting interface component rules and low-fidelity guidelines.

2 of 10 tasks resolved

[+] ARCHIVED / IDLE CONTRACTS

No active tracking on 4 legacy folders.

DELETEEDIT

TASK ID: TSK-408

Review pipeline database schema

STATUS

[~] IN PROGRESS

PRIORITY

HIGH (P1)

DUE DATE

OCTOBER 20, 2023 [OVERDUE]

ASSIGNEE

Sarah TechLead

DESCRIPTION

Database structural checks on incoming parameters for legacy migration endpoints. Must align keys with the documented API specifications.

SUBTASKS (2/3 COMPLETE)

Complete mapping matrix file

Verify foreign key relations

Prepare staging test deployment script

ACTIVITY FEED

Sarah checked off subtask "Verify key relations" (Today 09:12 AM)

QA Admin moved status to In Progress (Oct 19 02:40 PM)
